

...Firing up your Operational Performance

Introduction

Anion was one of the first entrants in the field of Healthcare BPO, providing Medical Billing and Insurance and TPA Back Office services. Anion is probably the only agency managed by Medical Experts to serve the Outsourced Processes of Healthcare Fraternity. Operations were started in 1999. Company was started by Medical and Technical experts based out of Ocala, Florida, USA.

Anion executes client processes for PROVIDERS, thus enabling them to focus on their core business!

Why Clients Need Anion?

- Organizations are looking beyond **cost & resources** to increase their business growth. These factors include
- Quick Actions
- Controlled Back-office Processes
- Risk Management
- Information Security
- Scalability & Flexibility

They need an expert – **Anion** is the answer providing service with quality, confidentiality, flexibility and cost benefit.
